CONTENTS

Tectonophysics Volume 219

Special Issue: New Horizons in Strong Motion: Seismic studies and engineering practice (edited by A.G. Green, A. Kröner, H.-J. Götze and N. Pavlenkova)

Preface vii
Variations in continental crustal structure in Canada from LITHOPROBE seismic reflection and other data
R.M. Clowes (Vancouver, Canada) 1
Electromagnetic images of modern and ancient subduction zones
A.G. Jones (Ottawa, Canada) 29
A plume-generated segment of the rifted margin of Laurentia, Southern Canadian Appalachians, seen through a completed Wilson Cycle
P.S. Kumarapeli (Montreal, Que., Canada) 47
Crustal structure along the strike of the offshore Santa Maria basin, California
K.C. Miller (Stanford, CA, USA) 57
Characteristic reflection patterns in the Southeast Canadian Cordillera, Northern Appalachians and Swiss Alps
A.G. Green (Zürich, Switzerland), L. Levato (Lausanne, Switzerland), P. Valasek (Zürich, Switzerland), R. Olivier (Lausanne, Switzerland), S. Mueller (Zürich, Switzerland), B. Milkereit (Ottawa, Ont., Canada) and J.-J. Wagner (Lausanne, Switzerland) 71
Processing and preliminary results of NFP / PNR20 seismic reflection profiles from the Western Swiss Alps
L. Levato, B. Pruniaux, M. Burri, A. Escher, R. Olivier, S. Sellami and J.-J. Wagner (Lausanne, Switzerland) 93
An active margin across the Adriatic Sea (central Mediterranean Sea)
P. Favali, R. Funiciello, G. Mattietti, G. Mele (Rome, Italy) and F. Salvini (Pisa, Italy) 109
Seismic imaging of upper crustal basement faults in the Skagerrak Sea
J.E. Lie (Oslo, Norway) and E.S. Husebye (Kjeller, Norway) 119
Seismic and geoelectric evidence for collisional and extensional events in the Fennoscandian Shield — implications for Precambrian crustal evolution
A. Korja, T. Korja (Oulu, Finland), U. Luosto and P. Heikkinen (Helsinki, Finland) 129
A teleseismic study of the lithospheric structure across the Ladoga–Bothnian Bay zone in Finland
G. Poupinet (Grenoble, France), P. Mäntyniemi, U. Luosto (Helsinki, Finland) and U. Achauer (Grenoble, France) ... 153
The return of sialic material to the mantle indicated by terrigeneous material subducted at convergent margins
R. Von Huene (Kiel, Germany) and D.W. Scholl (Menlo Park, CA, USA) 163
Delamination and delamination magmatism
R.W. Kay and S.M. Kay (Ithaca, NY, USA) 177
Crustal architecture across Phanerozoic Australia along the Eromanga–Brisbane Geoscience Transect: evolution and analogues
D.M. Finlayson (Canberra, A.C.T., Australia) 191
Lithospheric structure and evolution of the Tibetan Plateau: the Yadong–Golmud geoscience transect
W. Gongjing, X. Xuchang, L. Tingdon (Beijing, People's Republic of Chine), C. Qingyun (Changchun, People's Republic of China), C. Junwen, C. Zouzhou (Beijing, People's Republic of China), D. Xuebin (Changchun, People's Republic of China), G. Rui, H. Huaizeng, L. Xun (Beijing, People's Republic of China), M.L. Shune (Changchun, People's Republic of China), S. Xianjie and Y. Qingfan (Beijing, People's Republic of China) 213
Some thermotectonic aspects of the Tibetan plateau
S. Yaolin (Beijing, People's Republic of China) and Z. Yuanqing (Shanghai, People's Republic of China) 223
Joints as neotectonic plate signatures
A.E. Scheidegger (Vienna, Austria) 235

Research Papers
Pre-foliation metamorphism in low-pressure / high-temperature terrains
R.H. Vernon (Sydney, N.S.W., Australia), W.J. Collins (Newcastle, N.S.W., Australia) and S.R. Paterson (Los Angeles, CA, USA) 241

Can differences in heat flow between east and southern Africa be easily interpreted?: Implications for understanding regional variability in continental heat flow
A.A. Nyblade and H.N. Pollack (Ann Arbor, MI, USA) 257
Interrelationship of the terranes in western and central Cuba
K. Piotrowska (Warszawa, Poland) 273
Morphologic patterns of stream channels on the active Yishi Fault, southern Shandong Province, Eastern China: implications for repeated great earthquakes in the Holocene
W. Huang (Beijing, China) 283
Neotectonic activity along the Shanxi rift system, China
Xu Xiwei, Ma Xingyuan and Deng Qidong (Beijing, China) 305
Reactivation of Precambrian faults on the southwestern continental margin of India: evidence from gravity anomalies
V. Subrahmanyam, M.V. Ramana and D. Gopala Rao (Goa, India) 327
The crustal structure of western Bangladesh from gravity data
A.A. Khan (Rajshahi, Bangladesh) and B.N.P. Agarwal (Dhanbad, India) 341

Errata 355
